TO: File

FROM: Frank J. Filas, Reclamation Engineer 

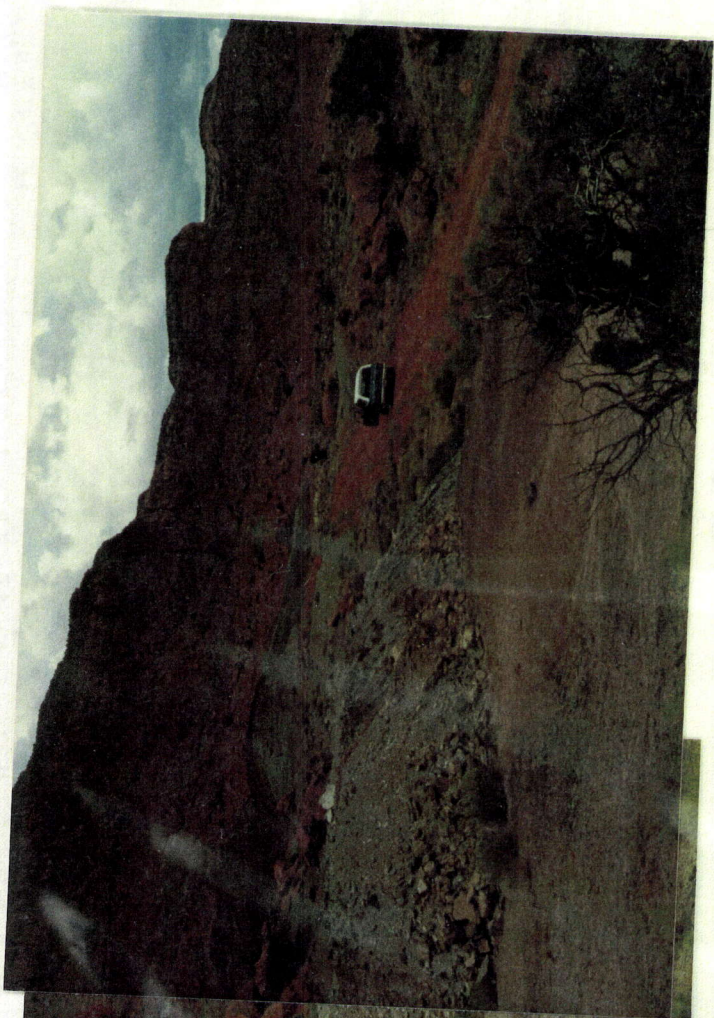

RE: Site Inspection, Jim Butt, Daisy Claims, DOE/037/011
(File also in Radium King File, M/037/007)

On July ²²19, 1987, Frank Filas and Ron Daniels inspected this abandoned mine site. It is located on the road to the Radium King Mine. It appears to be located in the NE1/4 of Section 12, Township 37 South, Range 15 East. This mine site was originally included in the Radium King Mine permit area (November 1976). It was dropped from the permit, however, in February 1977, when the Daisy Claims were leased to another group.

The site covers approximately one to two acres and consists of a partially caved decline and waste rock piles. The last assessment notices posted were for 1978. It is recommended that this file be retired.
